Subject: RE: call

Rick,

Let's plan to talk at 9:00 on Friday.

My understanding is that he wants to talk about both SSM and the EGU/111 matters, but I am not completely sure.

That said -- I want to talk to both of you about the EGU/111 matter before he wants a call w/ us on Friday afternoon. My response to him about scheduling a call was that the ball is in EPA's court. He told me (in a vm message to me on Nov. 1) that you told him that you are working on a "new approach." His words were that you said y'all are looking at a new approach, not AOs or SIP revision, but "another look at prior actions by way the 101 rules were revised and approved." By the way, that vm message was why I thought you had told him about the idea the four of us discussed on Oct. 22 -- and why I was worried last Wednesday about saying too much to him. I hope this makes sense. If not, I'll be glad to talk about it on Friday morning.

John and I would like to know if there is any further development on EPA's end on your new idea. Honestly, we haven't had any time to spend on it. If there isn't, then you can tell us that. You can expect Matt will want details and a timeline if there's a call on Monday. We have not mentioned to him that we are not working on the project at this time, but we have said that we are waiting to hear back from EPA.

Second: With regard to SSM -- I thought it would be a good idea to give y'all a couple of weeks or so to mull over what was discussed at our meeting on Nov. 7. I was going to suggest there be a follow up call the week on Nov. 26 or the week of Dec. 3. Thoughts??

I can work around most of those time. Matt had left me a message about wanting to share more thoughts on our reconsideration of the TCEQ's petition on the Texas SIP Call (mentioned involving Karen Bianco too). Is that what he wants to discuss?

Rick

I'd like to talk to you two on Friday morning – how about 11:30?

I am also available until 1:30 tomorrow.

Rick and Janis, could we talk on the phone on Monday 11/19 to discuss further the issues we touched on last week? Say, 2 pm?
